

Civil Site Services, Inc. clears several lots for Habitat for Humanity Community Service Project

Civil Site Services, Inc. cleared and graded three lots for future homes for the Griffin Area Habitat for Humanity recently. The clearing and grading of the three lots had a project value of \$11,000.00.

Once the houses are completed, families will be able to move in to the newly constructed homes. Habitat is founded on the conviction that every man, woman and child should have a simple, decent, affordable place to live in dignity and safety.

Habitat's mission and methods are predominantly derived from a few key theological concepts: the necessity of putting faith into action, the "economics of Jesus" and the "theology of the hammer."
