ARE YOU IN COMPLIANCE WITH THE LIFE AND SAFETY ISSUES IN THE OIL AND GAS INDUSTRY?

SafeLandUSA

The SafeLandUSA and SafeGulf SEMS and TRAP Basic Orientation 8 hour safety awareness course is designed to take the place of multiple operator orientations and to give each student a general idea of life and safety issues in the oil and gas industry, upstream, downstream, onshore or offshore. This one-day program meets API RP 75 & API RP T-1 requirements and provides a basic understanding at an awareness level of certain general safety information that an employee should know before entering a company facility and while performing their assigned work duties. Over 25 of the leading oil and gas operators accept this orientation as it meets their requirements. Upon successful completion of course, each student is issued a picture ID with a unique barcode. The student information is then stored in an online database and will follow the student the rest of their life. This orientation has become the standard program for the industry and certifies a student at awareness level.

You must bring Photo Identification to take this course!
